**Where It All Started**

Every celebration begins with excitement, but the planning behind it can be stressful, messy, and overwhelming. Brides, mothers, and corporate event planners all face the same frustration: "I don't even know where to start."

This is where **C2C – Click2Celebrate** was born. Our vision was to create a smart digital platform that brings all event services, vendors, packages, budgets, and tools together in **ONE** place, transforming stressful planning into a joyful journey.
